Please acknowledge methods you will use to notify your water system users in the event you must initiate your Emergency Notification Plan.

I propose to notify my water consumers by the following method(s):

- Post warnings in a conspicuous place
- Door to door contact
- Telephone
- I propose to notify my water consumers by the following alternative method: \_\_\_\_\_
- Shutting off all water
- Written hand outs

Consideration must be given to special organizations (such as schools), non-English speaking groups, and outlying water users. Ensure that the notification procedures you describe are practical and that you will be able to actually implement them in the event of an emergency.
