# COCKROACHES

Cody Lee

#### TOPICS TODAY

- Identifying Cockroaches
- How To Determine If Your Facility Has A Cockroach Infestation
- Recommendations For Opening After A Cockroach Closure
- Recommendations For Maintaining A Cockroach Free Facility

#### COMMON SPECIES LOCALLY

## QUESTIONS

- Which of the four cockroaches matures from egg to adult the fastest?
   -German cockroach
- If we start with one pregnant German cockroach and there are unlimited harborage areas, food, water, and no pest control how many cockroaches will there be in one year? (eg. 480 American cockroaches in one year)
  - **A**. 900,000
  - **B**. 3 million
  - C. 62 million
  - D. 92 million

#### NEW INVASIVE SPECIE

#### ORIENTAL OR TURKESTAN FEMALE??

Turkestan Female

**Oriental Female** 

#### AMERICAN OR TURKESTAN MALE???

American Male

Turkestan Male

#### AMERICAN OR TURKESTAN NYMPH

Turkestan Nymph

American Nymph

#### GERMAN COCKROACHES IMPORTANT TO IDENTIFY

IGR affected German Cockroach

Earwig/Pincher bug

Common Black Beetle

Female Oriental

June Bug

American Female

## DETERMINING COCKROACH INFESTATION

- What are some different ways you can determine that your facility could possibly be infested with cockroaches?
  - A. Recent pest control report
  - B. Monitoring traps
  - C. Dead cockroaches
  - D. Fecal focal points
  - E. All of the above

#### PEST CONTROL REPORT

# MONITORING TRAPS

## DEAD COCKROACHES

# FECAL FOCAL POINTS

## CLOSURE RECOMMENDATION QUESTION??

If your facility is closed for a large cockroach infestation, which of the following would be the best steps to eliminate cockroaches and to be able to open the earliest?

- A. Cleaning, sealing gaps/cracks, and self treatment using monitoring traps.
- B. Cleaning, sealing gaps/cracks, and self treatment applying bait.
- C. Cleaning, pest control applying bait in gaps/cracks, sealing gaps/cracks and then placing monitoring traps out.
- D. Cleaning, pest control applying residual contact spray, pest control microinjecting into wall with flushing agent, sealing gaps/cracks and then placing monitoring traps out.
- E. C and D

#### FOLLOW UP TRUE OR FALSE QUESTIONS

You should do a thorough floor cleaning with wash, rinse, and sanitize method after pest control has treated the facility for cockroach closure.

• False

You should seal all gaps and cracks before pest control comes for treatment of facility for cockroach closure.

• False

#### DETERMINING DYING COCKROACHES

- Moving laying on their backs
- Will not react to light
- Will not hide from people
- On monitoring traps

#### BEING PROACTIVE ABOUT COCKROACHES

#### Do not wait until you have a problem then react to this:

http://www.youtube.com/watch?v=HFse9Z4srTU

#### WAYS TO MAINTAIN COCKROACH FREE FACILITY

- Make sure your facility is cleaned on a nightly basis
  - Clean and pour bleach down floor sinks
  - Remove standing water
  - Remove food debris
  - Clean and sanitize equipment

#### QUESTIONS

- How long can a German Cockroach live without food and water?
  - Several weeks without food
  - One week without water
- How long can a German Cockroach live without its head?
  - One week

## WAYS TO MAINTAIN COCKROACH FREE FACILITY

• Seal all gaps/cracks in facility

# WAYS TO MAINTAIN COCKROACH FREE FACILITY

- Highly recommend hiring monthly pest control
- Highly recommend placing monitoring traps out to monitor facility

#### REMINDERS

- Cockroaches are hitchhikers
- Check boxes of products
- Remove all unused equipment
- Inform all employees to let management know
- Read your pest control reports
- Be proactive. Don't wait for the infestation
