Introduction

Please be advised that EMD, as the Sacramento County Solid Waste Local Enforcement Agency (LEA) received, reviewed, and approved a Report of Facility Information (RFI) Amendment application to revise L and D Landfill's Report of Disposal Site Information (RDSI)/Joint Technical Document (JTD). The LEA is certified by the California Department of Resources Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste sites within the County and City of Sacramento, including all active and closed landfills.

Description of project and LEA's determination

L and D Landfill is a solid waste disposal site located at 8635 Fruitridge Rd. Sacramento CA 95826. On February 1, 2021, the LEA received a Solid Waste Facility Permit (SWFP) application package to amend the RDSI/JTD from L and D Landfill Limited Partnership to address several deficiencies identified in the August 27, 2020, Five Year Permit Review completed by the LEA.

Revisions to the facility's RDSI include: edits to address how the operator will comply with maintaining stockpiles separated by day of receipt on the MRF pad with at least 20 feet between piles and ensure that any consolidation of piles is recorded in the special occurrences log. Updated WDR information and changes made on-site with respect to compliance with RWQCB requirements that may be relevant to or impact LEA requirements. Other updates were made to relevant references, maps, figures, and tables to include 2018 and 2019 data for the projected waste stream, site capacity, final cover requirement estimate, remaining waste capacity, remaining airspace, fill sequencing plans, quantity of wells in the perimeter monitoring system and gas control system, direct connection of the Leachate Collection and Removal System to the SASD sewer system for leachate disposal, the addition of a water cannon for dust control, installation of an electric fence for site security, updated locations of sheetrock processing and concrete recyclables, and various other updates to reflect minor changes or upgrades to site systems.

The LEA determined that the proposed changes were found to be consistent with all applicable certified California Environmental Quality Act (CEQA) documents, and the applicable State Minimum Standards, and do not conflict with the terms and conditions in the current SWFP. These changes qualified as RFI amendments. The LEA therefore accepted the RFI amendment on February 26, 2021, to satisfy the directives to the operator issued in the 5 Year Review.

Where copy of application can be reviewed

A copy of the approved application for the RFI Amendment is available for public review by appointment in the LEA office located at 11080 White Rock Road, Suite 200, Rancho Cordova, CA 95670.

LEA contact information

If you have any questions after reviewing the above information or would like to schedule an appointment to review the RFI Amendment package, please contact Katie Miller at (916) 206-5162 or by email at millerkatie@saccounty.net.

Appeal Process Information

For information on the appeal process to challenge the LEA's approval of the RFI Amendment, you may contact Katie Miller at (916) 206-5162.
