Notice to Amend the Report of Facility Information
Sacramento Recycling & Transfer Station
June 28, 2023

Introduction

The Sacramento County Environmental Management Department (EMD) is certified by the California Department of Resources, Recycling, and Recovery (CalRecycle) to act as the Local Enforcement Agency (LEA) within the Cities and County of Sacramento. The LEA issues permits and enforces state laws and regulations at solid waste facilities. Please be advised that the Sacramento County Solid Waste Local Enforcement Agency (LEA) received and approved a Report of Facility Information (RFI) Amendment application to the Solid Waste Facility Permit for the Sacramento Recycling & Transfer Station.

Description of project and LEA's determination

The Sacramento Recycling and Transfer Station (SRTS) is a large-volume transfer station and material recovery facility (MRF) with a LEA-permitted capacity to receive 2,500 tons per day of non-hazardous municipal solid waste, green waste, construction and demolition (C&D) waste food waste, and recyclables. SRTS is located 8491 Fruitridge Road, Sacramento, CA 95826 (APN 061-0173-028-0000).

On June 6, 2023, the LEA received an application package to amend the RFI to include the addition of a new baghouse system to remove plastic bags from the waste stream, an updated site map, and other minor changes such as a revised emergency contact list and equipment list.

The LEA found the proposed changes to be consistent with all applicable certified and/or adopted California Environmental Quality Act (CEQA) documents and applicable State Minimum Standards, pursuant to California Code of Regulations, Titles 14 and 27, and do not conflict with the terms and conditions in the current Solid Waste Facilities Permit.

The LEA accepted the application and approved the RFI amendment on June 28, 2023.
