Notice to Amend the Report of Facility Information
January 27, 2020

Introduction

The Sacramento County Environmental Management Department (EMD) is certified by the California Department of Resources, Recycling, and Recovery (CalRecycle) to act as the Local Enforcement Agency (LEA) within the Cities and County of Sacramento. The LEA issues permits and enforces state laws and regulations at solid waste facilities. Please be advised that the Sacramento County LEA received and approved a Report of Facility Information (RFI) Amendment to the Solid Waste Facility Permit for Elder Creek Recovery and Transfer Station.

Description of project and LEA's determination

Sacramento Recycling and Transfer Station is a large volume transfer station located at 8491 Fruitridge Road (APN 061-0173-028-0000). On December 31, 2019 the LEA received an application package to amend the RFI, as follows:

- Sections 1.0, 3.0 and 6.0 of the Transfer Processing Report (TPR) have been revised to allow the facility to recover/divert food waste in its materials recovery process.
- Management Organization diagram in Section 5.0 and Management Resume descriptions in Appendix G have been updated.

The LEA finds that the proposed change is consistent with all applicable certified and/or adopted California Environmental Quality Act (CEQA) documents, is consistent with the State Minimum Standards contained in Title 14 and Title 27 of the California Code of Regulations, and does not conflict with the terms and conditions in the current Solid Waste Facilities Permit. The LEA approved the amendment on January 27, 2020.

Opportunities for comment:

Written comments on the RFI Amendment can be sent to the Sacramento County Environmental Management Department, Attn: Roshani Dantas, Environmental Specialist, 10590 Armstrong Ave., Suite A, Mather, CA 95655, or emailed to DantasR@saccounty.net.
