

Vending Machine Workshop

Vending machines often store perishable food items such as sandwiches, salads and dairy products. If these items are not properly refrigerated or maintained at the correct temperature, there's a risk of bacterial growth and foodborne illness.

If you own, operate or service vending machines with perishable foods, this workshop is for you!

Workshop Topics:

- Definition of Vending Machine
- Application Process
- Food Safety
- Equipment Requirements
- Commissary

Thursday, May 23rd
1pm-2pm
